Destiny® Library Manager™

🔾 Follett

Quick reference guide

Managing Library Manager Fine Types

You need the flexibility to set up fine policies that are customized for your school. Library Manager's flexible fine management features let you customize how fines are assessed to best meet the needs of your school.

Library Manager refers to any charges to patrons as "fines," although the charges for some items and services are not penalties (for example, fees for using a printer or copy machine). Fines for overdue, lost, or damaged items are classified as Copy Specific. Charges unrelated to library materials are classified as Patron Only.

The following icons represent the default fine types in Library Manager:

A	Damaged	8	Refund		
?	Lost	2	Broken Binding		
٢	Overdue		Excessive Writing Missing Barcode Torn Pages		
2	Patron only		Water Damage User-Defined		

If the default fine types do not meet your needs, you can create additional fine types.

Note: While it is necessary to go through a patron record to create a new fine type, it is not necessary to assess a fine to create a new Fine Type. To create an additional fine type:

- 1. Select **Circulation > Fines**.
- 2. In the **Find Patron** field, scan or type a patron barcode or type a patron name. If you scan a barcode, the Fines page opens automatically. If you type the barcode or name, press **Enter** or click **Go!**.
- 3. If a list of patron names appears, click on the name of a patron to open the Fines page.
- 4. Select Add Fine > Other....
- 5. In the **Fine Type** field, type a descriptive name for the new fine type.
- 6. From the drop-down next to the Fine Type field, select Copy Specific or Patron Only.

- 7. If you selected **Copy Specific** in Step 6, select a **Calculation Method** of **Fixed** or **% of Cost**, and then type a value in the associated field. If you selected Patron Only, you can charge any amount when you assess a Patron Only fine.
- 8. Click Save.
- 9. If you do not want to assess a fine for this patron, click **Cancel**.
