

## Missing the EBSCO Databases? We have you covered! New GALE Databases are here!

As of July 1, 2019, the Maryland State Library's [SAILOR](#) program has discontinued subscriptions to the following EBSCO databases for public libraries and schools: *Explora Primary Schools*, *Explora Secondary Schools*, *History Reference Center*, and *Science Reference Center*. SAILOR is now providing us with access to a suite of GALE databases with comparable content and features. In addition, BCPS subscribes to several comparable databases for students in Grades K-5 and 6-12. Consider these alternatives to support curriculum and student research!
