# Default Options

Click the **Wixie Hand** button on the toolbar and select **Project Information**. This section will allow teachers to select default library and toolbar options in a Wixie project.

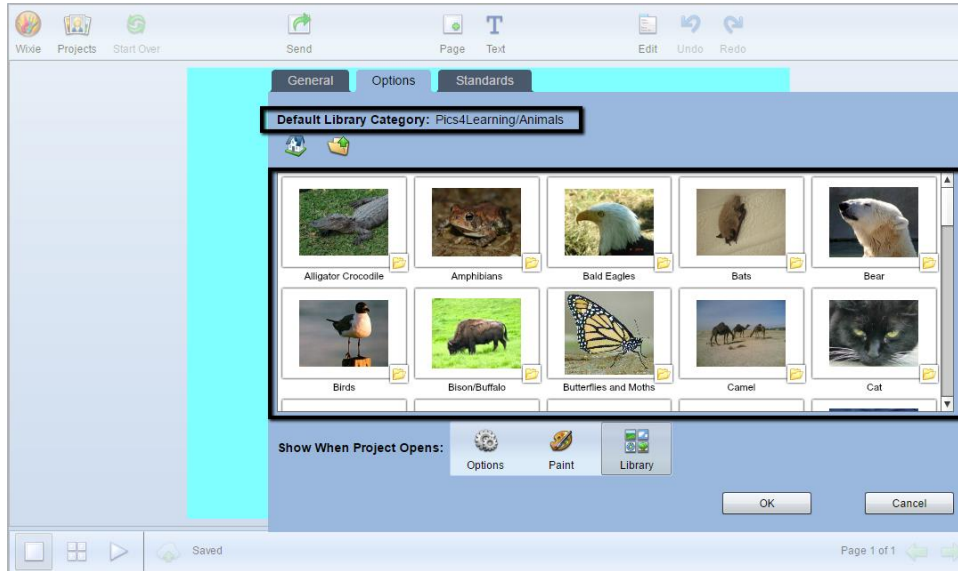

Select the **Options** tab on the **Project Information** window. Here teachers can select the **Default Library Category** students will see when they open an activity.
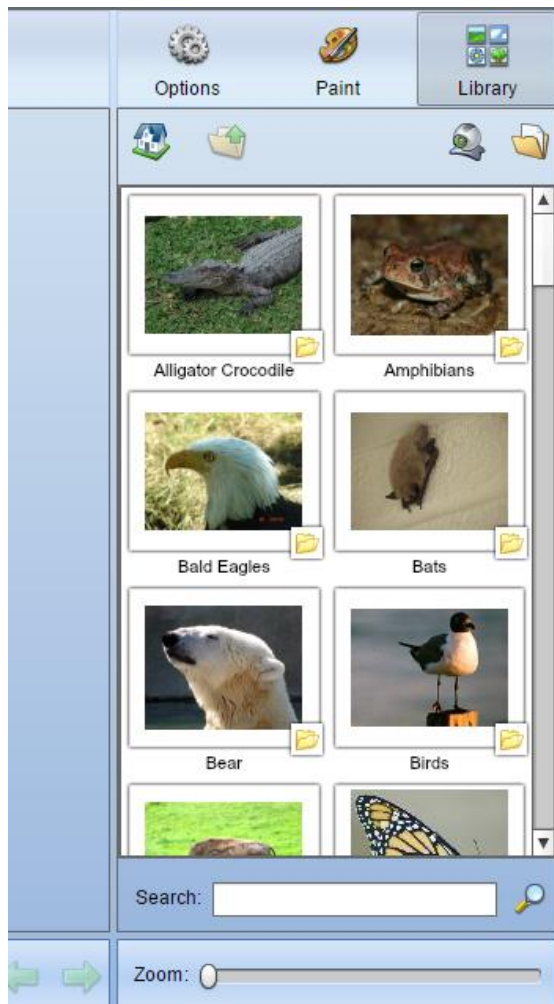

Teachers can select options from within the **Stickers** or **Pics4Learning** folders.

Once a set of folders or images has been selected it will become the **Default Library Category** students see when they open the activity.

Student view of library when they open the activity.

Options is the default section that is displayed when an activity is opened. Teachers can also **Paint** or **Library** to open as a default option on the toolbar.
